

## Why choose Extreme Trailers?

Since we began manufacturing in 2005, we have become the market leaders in our industry. With our combined marine experience of over 100 years, we have developed a comprehensive range of quality trailers that are made in the UK and designed to suit a wide range of craft. We pride ourselves on our customer service and offer complete support through our national dealer network.

## Standard Features

- Waterproof sealed bearings
- Tie down points
- U bolt construction allows total adjustment
- Fully galvanised chassis to EN ISO 1461 specification
- Non-marking rollers in a choice of six colours
- Removable Lightboard
- Two year manufacturer's warranty
- Type approved to UK and EU standard
- Certificate of conformity supplied

## Manufacturing Process

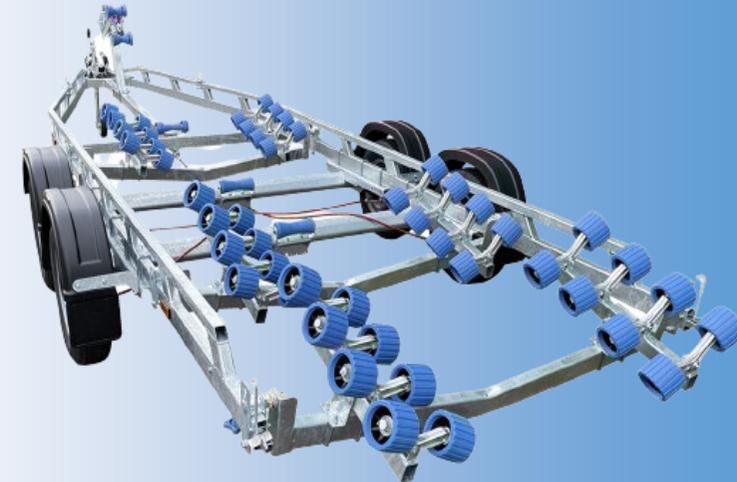

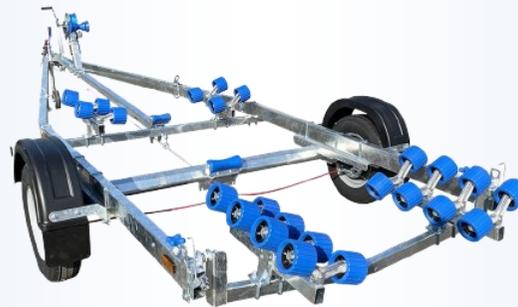

Our onsite manufacturing plant gives us total control to ensure the quality and efficiency of production. We use Computer Aided Design/Manufacturing systems alongside our CNC equipment including Laser cutter, bandsaws, presses and injection moulding machines.
